

Momentum for Slice in Small Business Insurance – Additional States & Coverage Options Added

Slice expands Workers' Compensation into five new states and adds Claims-Made for General Liability.

NEW YORK, NY – October 17, 2022 - (BUSINESS WIRE) -- [Slice Labs Inc.](#) (Slice), a technology company with the first on-demand insurance platform, announced the addition of five states for their Workers' Compensation product, as well as the availability of Claims-Made form for General Liability under Appalachian Underwriter's digital brand, AERO Insurance Services.

In addition to Georgia, Illinois and Mississippi, agents in Alabama, Arkansas, Florida, Indiana, and Missouri can now quote and bind in minutes with simple and affordable Workers' Comp insurance. The AERO Insurance Workers' Comp product supports primary industries such as Automobile Service, Construction, Hospitality, Manufacturing, Retail / Wholesale and more across 55+ class codes.

The General Liability Claims-Made form supplements the current occurrence and two year sunset forms to round out AERO's package offerings to three – Select (Claims-Made Coverage Form), Enhanced (Two Year Sunset Clause), and Premier (Full Occurrence). The Select (Claims-Made) product provides better coverage for some of the 65+ types of businesses covered.

"This expansion continues Slice's growth momentum and commitment to small business protection, especially as other insurtechs pull out of these markets," said Tim Attia, co-founder and CEO of Slice. "We're pleased to offer enhancements to products and availability so we can better support agents across the U.S.," added Tim.

About Slice Labs:

Slice Labs Inc. is building the future of insurance by enabling insurers, MGAs, and technology platforms to build intelligent and intuitive, on-demand digital insurance products via Slice's cloud-based platform. Founded in 2015 and headquartered in New York City, Slice has been consistently recognized as an insurance and technology leader by industry publications, awards, and Tier 1 publications. **To learn more, visit <https://slice.is>.
